EMPLOYMENT

Software Engineer	Axon Enterprise	Oct. 2023 - Present
--------------------------	------------------------	----------------------------

Device Evidence Management System (DEMS)

- Scaled and maintained a **400 VM distributed search infrastructure** managing **exabyte-scale data** (exceeding Netflix and YouTube combined), ensuring **99.99% availability** for **4 million daily queries**.
- Designed an **omni-channel single search bar** using **Apache Solr, Scala, and React** and engineered the backend to efficiently query across multiple metadata fields in a single search request, **driving 60% early adoption** of the DEMS 2.0 system redesign.
- Led the technical deployment of the Pricing Realignment project, leveraging feature flags and user-based licensing to achieve a projected **35% increase in product revenue** (or \$2 million increase).
- **Developed an anti-abuse and validation engine**, reducing Twilio operational costs by **15%** (\$120k/year).

Technical Account Manager	Qualtrics International	Dec. 2021 - Oct. 2023
----------------------------------	--------------------------------	------------------------------

Public Sector

- Deployed a full-stack data generation application using **Python, Flask, and Docker**, establishing a scalable **serverless architecture on AWS (ECS, Lambda, API Gateway)** that supported 5 internal customer support teams.
- Architected and implemented client ETL pipelines using **Python and REST APIs**, successfully processing **15 TB of data** monthly for clients and improving data delivery efficiency by **40%**.
- Presented technical recommendations to a client as part of a **successful \$1 million RFP deal**.

Program Manager	Acuity, Inc.	Aug. 2019 - Dec. 2021
------------------------	---------------------	------------------------------

U.S. Department of State

- Served as the resident **technical SME** for two applications of the Department of State's Defense Export Control and Compliance System (DECCS) - an **Azure/ServiceNow backed system**.
- **Engineered ServiceNow-based automation** for the DECCS platform, achieving a **93% increase** in resolution efficiency for critical Department of State workflows.

TECHNICAL SKILLS

-
- **Programming Languages:** Python, Scala, Go, TypeScript, JavaScript, Java, SQL
 - **Frameworks & Libraries:** React, PyTorch, Hugging Face, Playwright, Tailwind CSS,
 - **Data & Search:** Apache Solr, Elasticsearch, MySQL, Apache Cassandra, Cosmos DB, SQLite, Redis
 - **Infrastructure & DevOps:** Kubernetes, Terraform, Prometheus, Grafana, ArgoCD, Jenkins, Github Actions, Puppet, Docker, Linux RHEL, Azure Service Bus, Azure Functions, ActiveMQ

EDUCATION

Williamsburg, VA	College of William & Mary	Fall 2014 – May 2018
-------------------------	--------------------------------------	-----------------------------

- Bachelor of Arts (B.A.)

CERTIFICATIONS AND AWARDS

Certifications

- AWS Solutions Architect - Associate (2023)
- Professional Scrum Master I (PSM I) (2022)
